

# Event Reflections – subCon 2017

A big thank you to SSASE for creating subCON – such an  empowering event for s-types, by s-types, and those who support them! We really enjoyed presenting “Slave Postures for Health and Happiness” and “Bondage and Floggers and Bearclaws, Oh My!” and being part of such a great panel of presenters from along the East Coast.

A welcoming cupcakes and cocktails meet and greet on Friday kicked off the intimate event. Saturday had 3 choices of classes in each time slot with a play party at IOD that night. Sunday started with a skill share and then went into more classes and wrapped up with a service panel discussion. The variety was big enough for people to find things they were interested in and the attendance cap kept the classes intimate enough to be personal.
